

55R2 Series

55R2 — planar magnetics in the Forward / bridge topology.

Key features & specifications

Topology

Forward / bridge

Power range

80–300 W forward · 600 W bridge

Family

55R1 · 55R2

Optimized for isolated converters with synchronous rectification. Planar construction, low profile, and windings that can be embedded in the converter main PCB.

Data sheets

Part numbers & options

A per-part parameter table, simulation files and STP models for this series are available on request — tell us your input voltage, output voltage and power and we will confirm the closest standard part.
